THANKS TO THE ELEGANT DESIGN FEATURES WITH SEVERAL STEEL DETAILS, GAGGIA ANIMA IS A TREAT FOR THE PALATE AS WELL AS FOR THE EYES, ALLOWING YOU TO CREATE YOUR TAILOR-MADE ESPRESSO.

HIGHLIGHTS & FEATURES

AUTOMATIC MILK FROTHER

The automatic milk frother takes fresh milk straight from the container via a spout, frothing it internally and delivering it directly in the cup where the coffee has already brewed.

PROGRAMMABLE DISPENSING SYSTEM

Each drink can be fully customized and you can store your preferred settings per coffee and milk beverages for future brews, such as strength, temperature and length.

REMOVABLE PATENTED BREWING GROUP

It is the heart of the machine. It replicates the actions of a *barista* in an automatic mechanism. An ideal dose of coffee is tamped into a neatly compressed puck and it allows hot water to run through the puck at a suitable pressure for a great coffee.

100% CERAMIC GRINDER

Anima is equipped with a robust 100% ceramic grinder that turns beans into a fine powder and extracts maximum flavours, without ever tasting burnt. It has 5 different settings of grind that grant you the finest grind for a full-bodied espresso or a coarser grind for a lighter tasting coffee.

OPTIAROMA

You can select and memorize the amount of coffee required for your perfect Espresso: 5 options available, from 6,5 to 11,5 grams, to adjust the coffee strength to your taste.

15-BAR PUMP

Pumps the water through the ground coffee at high pressure to ensure better-tasting crematopped espressos.

GROUND COFFEE OPTION

This allows you to brew a different blend of coffee without changing the beans but using the ground coffee selected.

PROGRAMMABLE PRE-INFUSION

Few seconds of pause between the first shower of hot water and the brewing process moisturises the coffee grounds, extracting the full bouquet of aromas, giving your Espresso a unique body and taste.

GAGGIA ADAPTING SYSTEM

The innovative technology of the Gaggia Adapting System adjusts the grinding process, making sure the selected quantity of ground coffee is used for your espresso, whatever blend you choose. Just like a professional *barista*.
