Water tank	1.5L
Dimensions (l x h x w)	245 x 360 x 420 mm
Voltage	230 V
Weight	13 kg
Pump pressure	15 bar

Because a metal grinder might burn the coffee beans while grinding, all Gaggia's Espresso machines are equipped with an extremely durable ceramic grinder. A ceramic grinder retains the purity of the coffee aroma while being equally durable to a metal grinder. Additionally, the coffee grind can be adjusted from coarse to fine, just as you prefer.

The brew group is the heart of the machine. It replicates the actions of a barista in an automatic mechanism. This removable brewing group allows for easy cleaning and maintenance and can even be replaced separately if necessary. This saves money and increases the machine hygiene for a flawless coffee taste.

The double boiler in your espresso machine reduces the waiting time between brewing an espresso and dispensing steam to froth milk to just a few seconds. This makes preparing a Cappuccino much faster.

Thanks to the automatic cleaning and automatic descaling, you are guaranteed a perfect and hygienic Espresso every day and prolong the lifetime of your Gaggia Espresso machine.

Just press one of the 7 pre-set beverages and your Gaggia Espresso machine will brew them in a few seconds.
