

Idea Restyle Cappuccino

Idea Restyle Coffee + Milk Beverages Module

Description

We reinvented the Idea coffee machine, turning it into a top model in our professional automatic range: it now features premium materials and finishes. The new slim sides make it compact and versatile, being available as optional in other colours in addition to the black standard version, to fit in all locations. It is also equipped with a new user interface, with a backlit capacitive keyboard and a 3.5" colour display.

The Idea Restyle Cappuccino includes an integrated professional cappuccinatore: coffee and milk and milk foam are delivered in a programmable order or all at the same time. Milk is collected directly from the bottle and turned into a creamy foam, to deliver hot milk and brew 4 coffee/milk mixed beverages, mixing the elements to taste. The automatic cappuccinatore self-cleans after each use. Idea Restyle Cappuccino is equipped with a double boiler (one for coffee and one for hot water/steam) and with 3 hydraulic circuits that allow the machine to deliver coffee and milk, hot water and steam, all at the same time. The new user interface makes custom-programming all the 12 recipes/beverages, selectable with a touch. Moreover, as it is possible to prevent access to the programming menu, it is possible to place the machine in self-service mode, also excluding some beverages.

Main features

- Removable and washable brewing group
- Continuous steam production without damps
- Hot water production/hour (150 cc cup): 400
- Coffee preparations/hour (30 cc cup): 150
- Cappuccino preparations/hour (150 cc cup): 60
- Height-adjustable coffee spout
- Coffee beans container capacity: 2.1 kg
- Coffee grounds container capacity: 100
- Grinder equipped with 64 mm ceramic blades
- Automatic cappuccinatore
- Simultaneous dispensing of coffee, hot water and steam thanks to 3 separate water circuits
- Hot water independent heat exchanger

Accessories

- 7/9 g brewing group kit
- Pump/independent water tank kit
- Water softener kit
- Refrigerator module for milk
- Cup warmer module
- Coloured sides kit (colours: red, white, blue and 'Canaletto' walnut)

Technical data**Idea Restyle Cappuccino****Structural specifications**

Dimensions (w x h x d)	410 x 720 x 545 mm
Weight	56,7 kg
Framework material	pre-galvanized and painted steel
Housing material	ABS, PC, MDF / stainless steel

Electrical specifications

Power supply	208-220V/60 Hz - 230-240V/50 Hz
Maximum power consumption	3300 W
